The Customers are advised to get input from independent parties who are experts in their fields if the Customers require financial or legal advice related to the use of DCI. DCI contains risks that may result in a reduction in the principal amount of DCI because it depends on the volatility of currency exchange rates, including at the time of conversion of Alternative Currency into Base Currency. | <p>DCI bukan merupakan produk tradisional, namun merupakan Structured Product yang menggabungkan produk deposito berjangka dengan produk derivatif berupa opsi, yang diterbitkan oleh PT Bank Danamon Indonesia Tbk. DCI tidak dijamin oleh Lembaga Penjamin Simpanan (LPS). Nasabah harus mempertimbangkan secara cermat apakah penggunaan DCI sesuai dengan tujuan investasi sumber keuangan dan profil risiko Nasabah. Nasabah disarankan untuk mendapatkan masukan dari pihak independen yang ahli pada bidangnya apabila Nasabah membutuhkan nasihat keuangan atau hukum terkait penggunaan DCI. DCI mengandung risiko-risiko yang dapat menyebabkan berkurangnya jumlah pokok DCI karena bergantung pada volatilitas nilai pertukaran mata uang, termasuk pada saat dilakukannya konversi Mata Uang Alternatif ke Mata Uang Dasar. Terminasi dini sebelum jatuh tempo DCI tidak diijinkan. Apabila Nasabah tetap mengajukan terminasi dini, Nasabah akan dikenakan biaya terminasi dini yang besarnya ditentukan oleh Bank. DC is not a traditional product, but a Structured Product that combines a time deposit product and a derivative product in the form of options issued by PT Bank Danamon Indonesia Tbk. DCI is not guaranteed by the Indonesian Deposit Insurance Corporation (IDIC). The Customer must carefully consider whether the use of DCI is in accordance with the Customer's investment objectives, financial sources and risk profile. The Customers are advised to get input from independent parties who are experts in their fields if the Customers require financial or legal advice related to the use of DCI. DCI contains risks that may result in a reduction in the principal amount of DCI because it depends on the volatility of currency exchange rates, including at the time of conversion of Alternative Currency into Base Currency. Early termination before DCI maturity is not allowed. If the Customer continues to apply for early termination, the Customer will be subject to an early termination fee the amount of which is determined by the Bank.</p> | <p>Nama Jelas Nasabah<br/>Customer Full Name</p> |

| <p>DCI bukan merupakan produk tradisional, namun merupakan Structured Product yang menggabungkan produk deposito berjangka dengan produk derivatif berupa opsi, yang diterbitkan oleh PT Bank Danamon Indonesia Tbk. DCI tidak dijamin oleh Lembaga Penjamin Simpanan (LPS). Nasabah harus mempertimbangkan secara cermat apakah penggunaan DCI sesuai dengan tujuan investasi sumber keuangan dan profil risiko Nasabah. Nasabah disarankan untuk mendapatkan masukan dari pihak independen yang ahli pada bidangnya apabila Nasabah membutuhkan nasihat keuangan atau hukum terkait penggunaan DCI. DCI mengandung risiko-risiko yang dapat menyebabkan berkurangnya jumlah pokok DCI karena bergantung pada volatilitas nilai pertukaran mata uang, termasuk pada saat dilakukannya konversi Mata Uang Alternatif ke Mata Uang Dasar. Terminasi dini sebelum jatuh tempo DCI tidak diijinkan. Apabila Nasabah tetap mengajukan terminasi dini, Nasabah akan dikenakan biaya terminasi dini yang besarnya ditentukan oleh Bank. DC is not a traditional product, but a Structured Product that combines a time deposit product and a derivative product in the form of options issued by PT Bank Danamon Indonesia Tbk. DCI is not guaranteed by the Indonesian Deposit Insurance Corporation (IDIC). The Customer must carefully consider whether the use of DCI is in accordance with the Customer's investment objectives, financial sources and risk profile. The Customers are advised to get input from independent parties who are experts in their fields if the Customers require financial or legal advice related to the use of DCI. DCI contains risks that may result in a reduction in the principal amount of DCI because it depends on the volatility of currency exchange rates, including at the time of conversion of Alternative Currency into Base Currency. Early termination before DCI maturity is not allowed. If the Customer continues to apply for early termination, the Customer will be subject to an early termination fee the amount of which is determined by the Bank.</p> |                                          |

| <p>DCI bukan merupakan produk tradisional, namun merupakan Structured Product yang menggabungkan produk deposito berjangka dengan produk derivatif berupa opsi, yang diterbitkan oleh PT Bank Danamon Indonesia Tbk. DCI tidak dijamin oleh Lembaga Penjamin Simpanan (LPS). Nasabah harus mempertimbangkan secara cermat apakah penggunaan DCI sesuai dengan tujuan investasi sumber keuangan dan profil risiko Nasabah. Nasabah disarankan untuk mendapatkan masukan dari pihak independen yang ahli pada bidangnya apabila Nasabah membutuhkan nasihat keuangan atau hukum terkait penggunaan DCI. DCI mengandung risiko-risiko yang dapat menyebabkan berkurangnya jumlah pokok DCI karena bergantung pada volatilitas nilai pertukaran mata uang, termasuk pada saat dilakukannya konversi Mata Uang Alternatif ke Mata Uang Dasar. Terminasi dini sebelum jatuh tempo DCI tidak diijinkan. Apabila Nasabah tetap mengajukan terminasi dini, Nasabah akan dikenakan biaya terminasi dini yang besarnya ditentukan oleh Bank. DC is not a traditional product, but a Structured Product that combines a time deposit product and a derivative product in the form of options issued by PT Bank Danamon Indonesia Tbk. DCI is not guaranteed by the Indonesian Deposit Insurance Corporation (IDIC). The Customer must carefully consider whether the use of DCI is in accordance with the Customer's investment objectives, financial sources and risk profile. The Customers are advised to get input from independent parties who are experts in their fields if the Customers require financial or legal advice related to the use of DCI. DCI contains risks that may result in a reduction in the principal amount of DCI because it depends on the volatility of currency exchange rates, including at the time of conversion of Alternative Currency into Base Currency. Early termination before DCI maturity is not allowed. If the Customer continues to apply for early termination, the Customer will be subject to an early termination fee the amount of which is determined by the Bank.</p> |                                          |

| DCI bukan merupakan produk tradisional, namun merupakan Structured Product yang menggabungkan produk deposito berjangka dengan produk derivatif berupa opsi, yang diterbitkan oleh PT Bank Danamon Indonesia Tbk. DCI tidak dijamin oleh Lembaga Penjamin Simpanan (LPS). Nasabah harus mempertimbangkan secara cermat apakah penggunaan DCI sesuai dengan tujuan investasi sumber keuangan dan profil risiko Nasabah. Nasabah disarankan untuk mendapatkan masukan dari pihak independen yang ahli pada bidangnya apabila Nasabah membutuhkan nasihat keuangan atau hukum terkait penggunaan DCI. DCI mengandung risiko-risiko yang dapat menyebabkan berkurangnya jumlah pokok DCI karena bergantung pada volatilitas nilai pertukaran mata uang, termasuk pada saat dilakukannya konversi Mata Uang Alternatif ke Mata Uang Dasar. Terminasi dini sebelum jatuh tempo DCI tidak diijinkan. Apabila Nasabah tetap mengajukan terminasi dini, Nasabah akan dikenakan biaya terminasi dini yang besarnya ditentukan oleh Bank. DC is not a traditional product, but a Structured Product that combines a time deposit product and a derivative product in the form of options issued by PT Bank Danamon Indonesia Tbk. DCI is not guaranteed by the Indonesian Deposit Insurance Corporation (IDIC). The Customer must carefully consider whether the use of DCI is in accordance with the Customer's investment objectives, financial sources and risk profile. The Customers are advised to get input from independent parties who are experts in their fields if the Customers require financial or legal advice related to the use of DCI. DCI contains risks that may result in a reduction in the principal amount of DCI because it depends on the volatility of currency exchange rates, including at the time of conversion of Alternative Currency into Base Currency. Early termination before DCI maturity is not allowed. If the Customer continues to apply for early termination, the Customer will be subject to an early termination fee the amount of which is determined by the Bank. |                                          |

| <p>DCI bukan merupakan produk tradisional, namun merupakan Structured Product yang menggabungkan produk deposito berjangka dengan produk derivatif berupa opsi, yang diterbitkan oleh PT Bank Danamon Indonesia Tbk. DCI tidak dijamin oleh Lembaga Penjamin Simpanan (LPS). Nasabah harus mempertimbangkan secara cermat apakah penggunaan DCI sesuai dengan tujuan investasi sumber keuangan dan profil risiko Nasabah. Nasabah disarankan untuk mendapatkan masukan dari pihak independen yang ahli pada bidangnya apabila Nasabah membutuhkan nasihat keuangan atau hukum terkait penggunaan DCI. DCI mengandung risiko-risiko yang dapat menyebabkan berkurangnya jumlah pokok DCI karena bergantung pada volatilitas nilai pertukaran mata uang, termasuk pada saat dilakukannya konversi Mata Uang Alternatif ke Mata Uang Dasar. Terminasi dini sebelum jatuh tempo DCI tidak diijinkan. Apabila Nasabah tetap mengajukan terminasi dini, Nasabah akan dikenakan biaya terminasi dini yang besarnya ditentukan oleh Bank. DC is not a traditional product, but a Structured Product that combines a time deposit product and a derivative product in the form of options issued by PT Bank Danamon Indonesia Tbk. DCI is not guaranteed by the Indonesian Deposit Insurance Corporation (IDIC). The Customer must carefully consider whether the use of DCI is in accordance with the Customer's investment objectives, financial sources and risk profile. The Customers are advised to get input from independent parties who are experts in their fields if the Customers require financial or legal advice related to the use of DCI. DCI contains risks that may result in a reduction in the principal amount of DCI because it depends on the volatility of currency exchange rates, including at the time of conversion of Alternative Currency into Base Currency. Early termination before DCI maturity is not allowed. If the Customer continues to apply for early termination, the Customer will be subject to an early termination fee the amount of which is determined by the Bank.</p> | <p>Nama Jelas Nasabah<br/>Customer Full Name</p> |

| <p>DCI bukan merupakan produk tradisional, namun merupakan Structured Product yang menggabungkan produk deposito berjangka dengan produk derivatif berupa opsi, yang diterbitkan oleh PT Bank Danamon Indonesia Tbk. DCI tidak dijamin oleh Lembaga Penjamin Simpanan (LPS). Nasabah harus mempertimbangkan secara cermat apakah penggunaan DCI sesuai dengan tujuan investasi sumber keuangan dan profil risiko Nasabah. Nasabah disarankan untuk mendapatkan masukan dari pihak independen yang ahli pada bidangnya apabila Nasabah membutuhkan nasihat keuangan atau hukum terkait penggunaan DCI. DCI mengandung risiko-risiko yang dapat menyebabkan berkurangnya jumlah pokok DCI karena bergantung pada volatilitas nilai pertukaran mata uang, termasuk pada saat dilakukannya konversi Mata Uang Alternatif ke Mata Uang Dasar. Terminasi dini sebelum jatuh tempo DCI tidak diijinkan. Apabila Nasabah tetap mengajukan terminasi dini, Nasabah akan dikenakan biaya terminasi dini yang besarnya ditentukan oleh Bank. DC is not a traditional product, but a Structured Product that combines a time deposit product and a derivative product in the form of options issued by PT Bank Danamon Indonesia Tbk. DCI is not guaranteed by the Indonesian Deposit Insurance Corporation (IDIC). The Customer must carefully consider whether the use of DCI is in accordance with the Customer's investment objectives, financial sources and risk profile. The Customers are advised to get input from independent parties who are experts in their fields if the Customers require financial or legal advice related to the use of DCI. DCI contains risks that may result in a reduction in the principal amount of DCI because it depends on the volatility of currency exchange rates, including at the time of conversion of Alternative Currency into Base Currency. Early termination before DCI maturity is not allowed. If the Customer continues to apply for early termination, the Customer will be subject to an early termination fee the amount of which is determined by the Bank.</p> | <p>Nama Jelas Nasabah<br/>Customer Full Name</p> |

| <p>DCI bukan merupakan produk tradisional, namun merupakan Structured Product yang menggabungkan produk deposito berjangka dengan produk derivatif berupa opsi, yang diterbitkan oleh PT Bank Danamon Indonesia Tbk. DCI tidak dijamin oleh Lembaga Penjamin Simpanan (LPS). Nasabah harus mempertimbangkan secara cermat apakah penggunaan DCI sesuai dengan tujuan investasi sumber keuangan dan profil risiko Nasabah. Nasabah disarankan untuk mendapatkan masukan dari pihak independen yang ahli pada bidangnya apabila Nasabah membutuhkan nasihat keuangan atau hukum terkait penggunaan DCI. DCI mengandung risiko-risiko yang dapat menyebabkan berkurangnya jumlah pokok DCI karena bergantung pada volatilitas nilai pertukaran mata uang, termasuk pada saat dilakukannya konversi Mata Uang Alternatif ke Mata Uang Dasar. Terminasi dini sebelum jatuh tempo DCI tidak diijinkan. Apabila Nasabah tetap mengajukan terminasi dini, Nasabah akan dikenakan biaya terminasi dini yang besarnya ditentukan oleh Bank. DC is not a traditional product, but a Structured Product that combines a time deposit product and a derivative product in the form of options issued by PT Bank Danamon Indonesia Tbk. DCI is not guaranteed by the Indonesian Deposit Insurance Corporation (IDIC). The Customer must carefully consider whether the use of DCI is in accordance with the Customer's investment objectives, financial sources and risk profile. The Customers are advised to get input from independent parties who are experts in their fields if the Customers require financial or legal advice related to the use of DCI. DCI contains risks that may result in a reduction in the principal amount of DCI because it depends on the volatility of currency exchange rates, including at the time of conversion of Alternative Currency into Base Currency. Early termination before DCI maturity is not allowed. If the Customer continues to apply for early termination, the Customer will be subject to an early termination fee the amount of which is determined by the Bank.</p> | <p>Nama Jelas Nasabah<br/>Customer Full Name</p> |

Nasabah dengan ini memberikan kuasa dan kewenangan kepada Bank untuk:

*The Customer hereby authorizes the Bank to take the following measures/actions:*

Melakukan pemblokiran atas dana Nasabah di Rekening Relasi sejumlah nominal penempatan dalam Mata Uang Dasar sejak Tanggal Transaksi sampai dengan Tanggal Penempatan.

*Blocking the Customer's funds in the Relation Account with a nominal amount of placement in the Base Currency from the Trade Date until the Vaue Date.*

Pada Tanggal Jatuh Tempo, Bank akan membayarkan hasil penempatan DCI Nasabah (Pokok Penempatan dan Tingkat Pengembalian) dalam Mata Uang Dasar atau Mata Uang Alternatif berdasarkan perbandingan *Strike Price* dan *Spot* Referensi yang berlaku pada Tanggal & Waktu Penentuan. Apabila pembayaran dilakukan dalam Mata Uang Alternatif, Nasabah menerima sepenuhnya risiko kerugian dimana jumlah yang dikreditkan ke Rekening Relasi Nasabah nilainya lebih kecil dari nilai Pokok Penempatan awal dalam Mata Uang Dasar.

*On the Maturity Date, the Bank will pay the Customer's DCI values (Principal value and Rate of Return) in the Base Currency or Alternate Currency based on the comparison of the Strike Price and the Reference Spot applicable on the Fixing Date & Time. If the payment is made in an Alternate Currency, the Customer fully bears the risk of loss in which the amount credited to the Customer Relation Account is less than the initial Principal value in the Base Currency.*

Apabila Tanggal Jatuh Tempo DCI jatuh pada hari yang bukan merupakan Hari Kerja, maka Bank akan mengkreditkan hasil penempatan DCI ke Rekening Relasi pada Hari Kerja berikutnya. Tidak ada penambahan pembayaran bunga sejak Tanggal Jatuh Tempo sampai Hari Kerja berikutnya atas hasil penempatan DCI.

*If the DCI Maturity Date falls on a day that is not a Business Day, the Bank will credit the DCI values to the Relation Account on the next Business Day. There will be no additional interest payments as of the Maturity Date until the next Business Day on the DCI values.*

Nasabah wajib memastikan pengkinian data Nasabah sebelum transaksi DCI dilakukan dan memberikan informasi secara tertulis kepada Bank atas setiap perubahan data Nasabah guna memastikan kelancaran pelaksanaan transaksi DCI. Bank tidak bertanggung jawab untuk setiap kerugian, biaya dan pengeluaran

| <p>DCI bukan merupakan produk tradisional, namun merupakan Structured Product yang menggabungkan produk deposito berjangka dengan produk derivatif berupa opsi, yang diterbitkan oleh PT Bank Danamon Indonesia Tbk. DCI tidak dijamin oleh Lembaga Penjamin Simpanan (LPS). Nasabah harus mempertimbangkan secara cermat apakah penggunaan DCI sesuai dengan tujuan investasi sumber keuangan dan profil risiko Nasabah. Nasabah disarankan untuk mendapatkan masukan dari pihak independen yang ahli pada bidangnya apabila Nasabah membutuhkan nasihat keuangan atau hukum terkait penggunaan DCI. DCI mengandung risiko-risiko yang dapat menyebabkan berkurangnya jumlah pokok DCI karena bergantung pada volatilitas nilai pertukaran mata uang, termasuk pada saat dilakukannya konversi Mata Uang Alternatif ke Mata Uang Dasar. Terminasi dini sebelum jatuh tempo DCI tidak diijinkan. Apabila Nasabah tetap mengajukan terminasi dini, Nasabah akan dikenakan biaya terminasi dini yang besarnya ditentukan oleh Bank. DC is not a traditional product, but a Structured Product that combines a time deposit product and a derivative product in the form of options issued by PT Bank Danamon Indonesia Tbk. DCI is not guaranteed by the Indonesian Deposit Insurance Corporation (IDIC). The Customer must carefully consider whether the use of DCI is in accordance with the Customer's investment objectives, financial sources and risk profile. The Customers are advised to get input from independent parties who are experts in their fields if the Customers require financial or legal advice related to the use of DCI. DCI contains risks that may result in a reduction in the principal amount of DCI because it depends on the volatility of currency exchange rates, including at the time of conversion of Alternative Currency into Base Currency. Early termination before DCI maturity is not allowed. If the Customer continues to apply for early termination, the Customer will be subject to an early termination fee the amount of which is determined by the Bank.</p> | <p>Nama Jelas Nasabah<br/>Customer Full Name</p> |

DCI tidak dijamin oleh Lembaga Penjamin Simpanan (LPS). Nasabah harus mempertimbangkan secara cermat apakah penggunaan DCI sesuai dengan tujuan investasi sumber keuangan dan profil risiko Nasabah. Nasabah disarankan untuk mendapatkan masukan dari pihak independen yang ahli pada bidangnya apabila Nasabah membutuhkan nasihat keuangan atau hukum terkait penggunaan DCI. Terminasi dini sebelum jatuh tempo DCI tidak diijinkan. Apabila Nasabah tetap mengajukan terminasi dini, Nasabah akan dikenakan biaya terminasi dini yang besarnya ditentukan oleh Bank. | <p>DCI bukan merupakan produk tradisional, namun merupakan Structured Product yang menggabungkan produk deposito berjangka dengan produk derivatif berupa opsi, yang diterbitkan oleh PT Bank Danamon Indonesia Tbk. DCI tidak dijamin oleh Lembaga Penjamin Simpanan (LPS). Nasabah harus mempertimbangkan secara cermat apakah penggunaan DCI sesuai dengan tujuan investasi sumber keuangan dan profil risiko Nasabah. Nasabah disarankan untuk mendapatkan masukan dari pihak independen yang ahli pada bidangnya apabila Nasabah membutuhkan nasihat keuangan atau hukum terkait penggunaan DCI. DCI mengandung risiko-risiko yang dapat menyebabkan berkurangnya jumlah pokok DCI karena bergantung pada volatilitas nilai pertukaran mata uang, termasuk pada saat dilakukannya konversi Mata Uang Alternatif ke Mata Uang Dasar. Terminasi dini sebelum jatuh tempo DCI tidak diijinkan. Apabila Nasabah tetap mengajukan terminasi dini, Nasabah akan dikenakan biaya terminasi dini yang besarnya ditentukan oleh Bank. DC is not a traditional product, but a Structured Product that combines a time deposit product and a derivative product in the form of options issued by PT Bank Danamon Indonesia Tbk. DCI is not guaranteed by the Indonesian Deposit Insurance Corporation (IDIC). The Customer must carefully consider whether the use of DCI is in accordance with the Customer's investment objectives, financial sources and risk profile. The Customers are advised to get input from independent parties who are experts in their fields if the Customers require financial or legal advice related to the use of DCI. DCI contains risks that may result in a reduction in the principal amount of DCI because it depends on the volatility of currency exchange rates, including at the time of conversion of Alternative Currency into Base Currency. Early termination before DCI maturity is not allowed. If the Customer continues to apply for early termination, the Customer will be subject to an early termination fee the amount of which is determined by the Bank.</p> | <p><b>Nama Jelas Nasabah<br/>Customer Full Name</b></p> |
